	<u>Center Authorized Budget</u> <u>(as of 10/31/05)</u>	<u>Current Request</u> <u>(includes benefit)</u>
Total Budget	19,717,206	\$ 85,647
Receipts	<u>6,776,223</u>	<u>85,647</u>
Appropriation	\$ 12,940,983	\$ 0

Funding Source(s):

The Local Education Agencies (LEAs) of North Carolina use the Human Resource Management System (HRMS) to run their Personnel Offices in each LEA in support of NC K-12 human resource business needs. This tool facilitates standardization and efficiency gains for citizens who submit employment applications, LEAs who have special needs for tracking and managing education-related human resources information, and DPI who regularly needs to gather information for federal and state queries. The LEAs funded the design and development of the current distributed application, and they continue to pay DPI for system enhancements and maintenance using subscription fees that they derive from their local budgets. The LEAs actually own the application, and the majority of system components reside on the LEA AS/400 systems. A Quality Assurance Analyst (Computing Consultant IV) is required on the product team to perform quality control activities that include writing test cases, running test scripts as well as performing quality assurance tasks of reviewing quality data from the software defects tracking processes and recommending improvements to quality processes for the HRMS product.

DPI wants to use local receipts dollars to establish this position.
